# On-Page SEO

## **Create a Keyword Research Sheet**

Keyword research is a core SEO task that involves identifying popular words and phrases people enter into the search engine. It is important to understand the intent behind them is and it is very important to your SEO strategy

### **Tips**

- [SEMRush](#)
- [Adwords Keyword Planner](#)

## **Get your Keyword into your Page URL**

Keywords in the URL are known to be a ranking signal. Page URLs is important because keywords in the URL are a ranking factor and short and descriptive URLs can help with link building and user experience

## **Add filenames and Descriptive ALT Tags**

Alternative text, also known as ALT Tags, are used for search engines to see images and look at files names. Alt Tags need to be both descriptive and useful

# On-Page SEO

## **Add your Keyword to your Title Tag**

Interesting and easily recognizable titles with important keywords near the front help ensure that people don't lose track of your content. It normally is the first thing that users see and is a very strong signal for search bots to understand what the page is about

## **Add your keyword to your Meta Description**

The Meta Description in HTML is the 155 character snippet used to summarize a web page's content. It is not used by search engines as a ranking signal, however, it lets visitors know what a page is about before they click on it

## **Add your keyword to your H1 Tag**

H1 is a specific piece of HTML code that is usually wrapped around text. The H1 is considered the most important tag, and the H6 is the least important. It is important that there is one H1 in the entire page and that it appears before any other heading tag

# Off-Page SEO

## Research your Competitors Link Profiles

The easiest way to start link building is by tracking where they are getting their most authoritative backlinks will help you to understand their strategy as well as how they are anchoring the links on their pages. Information on competitors are very powerful and they provide insights as to where you can gain similar links.

### **Tips**
